- ✓ **Glowing Coat**
- ✓ **Strong Hooves**
- ✓ **Health & Immunity**
- ✓ **Sports Performance**

DIRECTIONS FOR USE

Mix into daily feed rations

Maintenance dosage

60 grams (125ml) /day

Performance dosage

120 grams (250ml) /day

Fenugreek is nature's richest source of healthy saponins (diosgenin and dioscin).

Numerous peer reviewed studies show unrivaled benefits:

- *Improves appetite and soothes digestion*
- *Eases joint stiffness and inflammation*
- *Enriches coat with a lustrous shine*
- *Faster muscle recovery time*
- *Fertility and hormonal balance*
- *Boosts vitality and immune response*
- *Strengthens and stimulates hoof growth*

Nutrifen™ is the world's gold-standard source of fenugreek.

It is produced in Canada using a patented cold-extraction process that greatly concentrates the beneficial components of the fenugreek seed by removing the endosperm and other assimilation inhibitors. The result is a highly absorbable, fine-powder extract with superior bio-availability.
